Quayle Action

This application is in condition for allowance except for the following formal matters:

a) Claim 8 is objected to because of the following informalities: it is not known what is meant by the period at the end of step c) indicating the end of the claim, which is not so. The applicants stated that claim 8 has been amended to remove the final period. However, it was not the final period which was objected to but the period that appears at the end of the line "c) performing N-Alkylation of 4 gave the substituted arylalcanoic acid derivatives 6." The period that appeared at the end of the claim needs to be replaced and the period, which appears before the reaction mechanism need to be addressed.

b) The applicants are reminded that the definition of A, B and X has not been limited to the subject matter elected without traverse. The applicant's election of Group I in the reply filed on January 17, 2006 was acknowledged in the office action dated March 17, 2006. It was stated that "because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a))."

Allowable Subject Matter

Claims 1-9, 12, 14, 16, 17, 20 and 21 would be allowable if rewritten and **limited to the elected invention**. None of the prior art of record or a search in the pertinent art area teaches or fairly suggests the compounds, compositions and method of use of the compounds of formula I where A, B and X form a dibenzopyrrole ring as set forth in Group I of the restriction requirement of December 2, 2005.

Prosecution on the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire TWO MONTHS from the mailing date of this letter.
